

*VI International Working Group (IWG) Meeting*  
***“Refocusing on Non-Proliferation Objectives in the RNCs  
by Strengthening Science Commercialization  
and Global Partnership Redirection Programs”***

*The Role of Tailored Pilot Projects in some Key RNCs  
and of Merging Former Defense-Civilian Nuclear Energy Expertise*  
Council Room, Municipality of Como, Italy, 19-21 April 2006

<b>Contributions List*</b>
----------------------------

**19 April 2006**

**Anthony Ian** - *On the EU 2007- 2013 budget framework*

**Averre Derek** - *Status and prospects for non-proliferation in the bio-sector*

**Della Ratta Raphael** - *Integrating scientist redirection into a global proliferation prevention regime*

**Lantieri Antonino** - *Medium-Long Term Strategy for the IWG to meet the objectives III and IV at the G8GP*

**Martellini Maurizio** - *Addressing note - The Role of New Commercialization/Innovation Methods and of Global Nuclear Energy Infrastructure Needs for a Modern, Tailored Economic Diversification/Reorientation of the RNCs*

**Sterekhov Vladimir** - *Specific features of Global partnership in countries of Group “Eight” as compared to other International programs of scientific collaboration concerning switching of Russian nuclear specialists into civil activity and placing them in job*

**20 April 2006**

**Ageyev Alexander** - *ZATO Seversk :cooperation with international nuclear programs*

**Berls Robert** - *Addressing the problem of redirection of nuclear weapons employees: NTI's projects in Sarov*

**Golosovsky Anatoly and Shatova Liliya** - *Zheleznogorsk Mining and Chemical Combine: Prospects and Redirection issues as Part of International Collaboration*

**Idenburg Peter** - *RUSSIAN DOLLS (Matrëska)- Some comments on transition processes for solving complex problems*

**Kröning Michael** - *Refocusing on non-proliferation objectives in theRNCs by strengthening science commercialisation and global partnership redirection*

---

\* alphabetic order

**Lindholm Peter** - *Commercialisation workshop, challenges, opportunities and possible roles of the IWG*

**Lindholm Peter** and **Mikhailov Nikolay** - *Addressing note*

**Mininni Margot** - *A strategic approach to worker redirection: maximizing impact of program funding through effective tools and local resources*

**Mikhailov Nikolai**- *Pilot projects to organize effective governmental-private partnership supported in the framework of the state programs*

**Newton Douglas S.** and **Haley Timothy A.** - *The Elimination of Weapons-Grade Plutonium Production (EWGPP) program in the Russian Federation and initiatives for complimentary projects at Seversk and Zheleznogorsk*

**Salio Jose** - *New Models for Large-Scale Public-Private Investment Capital Involvement at the Russian Closed Cities and the U.S. Nuclear Weapons Complex*

**Vladimir Zhigalov** - *Governmental-private partnership as a key element of effective commercialization for Russian nuclear cities*

**Williams Schmidt Laura** - *ISTC's commercialization support program as a mechanism for redirecting scientists from closed cities: Commercialization initiatives underway and planned*

**Zakharchenko Igor** - *ISTC projects in closed cities*

**21 April 2006**

**Vampilov Sergei** - *Development of power plants based on solid oxide fuel cells in Zababakhin RFNC-VNIITF*

**Kagramanian Vladimir** - *On the fuel cycle centres*

**Gray Patrick**-*UK/RF Closed Nuclear Cities Partnership (CNCP)*

**Hayward Trevor**- *UK contribution to global partnership*

**Nesse Ron** - *PNNL Strategies and Contributions to the U.S. Nuclear Cities Initiative*
